Allowable Subject Matter

Claims 1-4 and 6-14 (renumbered as 1-13) are allowed.

The following is an examiner's statement of reasons for allowance:

The closet available prior arts, USP 5,577,222, issued to Micka et al. also teaches a method and system for duplicating data. However, as in claims 1 and 8,

Art Unit: 2162

Micka fails to teach or suggest one of the storage systems of the second storage subsystem group is a predetermined storage subsystem and each of the storage subsystems, other than the predetermined storage subsystem, notifies the predetermined storage subsystem of a latest time of data from the other storage subsystems, and the predetermined storage subsystem decides the oldest time from among the latest time of data in each of the other storage subsystems and a latest time of data stored in the predetermined storage subsystem.

Therefore, the invention is allowable over the prior arts of record for being directed to a combination of claimed elements including the providing steps as indicated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
